ANNUAL LARKSPUR

Larkspur seed may be sown directly in the open in the fall; outdoor sowing in September will give the best blooms in the spring, however if sown as early in the spring as the ground can be worked, fine spikes may be obtained.

Under Glass—Spring Flowering. For indoor growing, Larkspur is a nice crop to follow late Mums. Well started 3-inch banded or potted plants should be ready, and are produced by a December sowing.

SUPREME LARKSPUR
The Ideal Cut Flower Strain

This is by far the most desirable and florists' favorite because of its especially clear colors, uniformity in height, and long well filled flowering spikes, closely covered with fully double flowers and large individual florets.

Dark Blue Supreme. A truly fine rich violet-purple.

Lilac Supreme. A pleasing shade of clear lilac.

Rose Supreme. A clear, pure deep rose.

Salmon Supreme. A true shade of real salmon.

White Supreme. A fine white Larkspur.
